SUMMARY

I'm Hunain Sualeh, a versatile Frontend Engineer skilled in the MERN stack, PHP, JavaScript, and OOP. I excel in creating dynamic web applications with React, Node.js, SQL, and MongoDB. With expertise in UI/UX design and tools like Figma and Bootstrap, I focus on delivering high-quality, responsive solutions. Adaptable and passionate about problem-solving and new technologies.

TECHNICAL SKILLS

Languages	C++, React, JavaScript, NodeJS, PHP, HTML, CSS, JSON, XML
Database	SQL, MongoDB
Source control	Git, GitHub
Architectures	MVC, MVP
Technologies	Web Development, WordPress, Frontend Designing, Backend APIs
Design	UI/UX, Figma, Adobe Photoshop, Adobe Premiere Pro
Third-party	Tailwind CSS, Bootstrap, Laravel, MERN Stack
Tools	Visual Studio Code, Primavera, JIRA
Platforms	Microsoft Windows, Linux
Skills	Object Oriented Programming (OOP)

EXPERIENCE

WEB Projects	Schoolify Developed a MERN stack-based school management system with features like teacher management, admin and student panels, course and class management.
	Luxe Developed the main dashboard for a luxury clothing brand Luxe using HTML, CSS, JavaScript, and Bootstrap, focusing on a sleek and user-friendly design. Currently working on developing backend APIs to enhance functionality.
	Hospital Management System Developed a comprehensive system using PHP, JavaScript, SQL, HTML, and CSS. Implemented CRUD operations for managing patients, staff, appointments, hospital pharmacy, and other features.
